13th & 14th December 2007

IASLC International Congress on

Advances in Pulmonary Neuroendocrine Tumours

Advances in Pulmonary Neuroendocrine Tumours

13th and 14th December, London, United Kingdom

A Warm Welcome

The faculty would like to extend an invitation to you to attend this meeting in London to discuss pulmonary neuroendocrine tumours, a fascinating and evolving subset of thoracic tumours.

In this meeting, the advances in pathology, imaging, diagnosis and management of this spectrum of tumours will be presented by an international faculty from North America, Europe and Asia. The focus of this meeting is on typical and atypical carcinoid tumours, and large cell neuroendocrine carcinomas.

Participants will hear of the progress with the IASLC International Pulmonary Neuroendocrine Tumours Registry, and have the opportunity to take part in the discussion on future research scope and direction of this resource.

Participants

This meeting is ideally suited for physicians, oncologists, surgeons, pathologists and radiologists who have an interest in thoracic tumours. In addition, participation from residents, nurses and other health professionals will be warmly welcomed.

Registration fees

Registration information can be obtained by sending us an email (pnet07.rbht.nhs.uk) or on our website (www.thoracics.com).

Advanced registration (before 12th December 2007)	£400
On site registration	£450

Students, nurses and other health professionals	£200
---	------

Location

The meeting is organised by the Royal Brompton Hospital, and will be held at the National Heart and Lung Institute, Dovehouse Street, South Kensington, London SW3 6LY. Preferential accommodation rates (limited availability) have been secured for participants at the Jury's Kensington Hotel, 109-113 Queen's Gate, South Kensington, London SW7 5LR (+44 (0) 207 7589 6300).

We look forward to meeting you in London!

Peter Goldstraw
William Travis
Andrew Nicholson
Eric Lim

June 2007

Day 1 – Thursday December 13th 2007

Pathology

Typical and atypical carcinoid tumours
Professor Andrew Nicholson, London, UK

Large cell neuroendocrine and small cell carcinoma
Professor William Travis, New York, USA

Diagnosis

Clinical presentation
Dr James Jett, Rochester, USA

Paraneoplastic syndromes
Professor Piero Ferolla, Perugia, Italy

Novel imaging techniques
Dr Jamshed Bomanji, London, United Kingdom

Surgery

Surgery for typical and atypical carcinoids
Professor Valerie Rusch, New York, USA

Surgery for large cell neuroendocrine tumours
Professor Hisao Asamura, Tokyo, Japan

Cell type and staging on post-surgical survival
Mr Eric Lim, London, UK

Chemotherapy and radiotherapy

Primary chemotherapy
Professor Britt Skogseid, Uppsalla, Sweden

Adjuvant chemotherapy
Dr Eric Baudin, Villejuif, France

Management of advanced disease
Dr Martyn Caplin, London, UK

Radionuclide therapy
Dr Dik Kwekkeboom, Rotterdam, The Netherlands

Day 2 – Friday December 14th 2007

Biologic therapy

Current and novel biomarkers
Professor Elisabeth Brambilla, Grenoble, France

Biologic therapy
Professor Britt Skogseid, Uppsalla, Sweden

IASLC Neuroendocrine Tumours Registry

History and background
Professor William Travis, New York, USA

IASLC Neuroendocrine Tumours Registry
Professor Peter Goldstraw, London, UK

Overview of the registry to date
Mr Eric Lim, London, UK

Data collection and submission
Dr John Crowley, Seattle, USA

Breakout sessions

Seminar Room A – Surgery / Oncology
Seminar Room B – Pathology

Paul wood lecture theatre

Summary of discussion by Surgeons / Oncologists
Professor Valerie Rusch, New York, USA

Summary of discussion by Pathologists
Professor William Travis, New York, USA

Closing remarks and discussion
Professor Peter Goldstraw, London, UK

Lunch
